

## CorSaver™ and Center Hole Plugs – tough little cookies

**A crushed roll of product can cost** manufacturers and their customers countless hours, dollars, and headaches. But by simply inserting core plugs into each roll of paper, linerboard, plastic, or textiles, companies can reduce damage and loss claims for just pennies per roll. And unlike other manufacturers, Souhegan guarantees a steady inventory of the products you need, whenever you need them.

We offer two different types of high-density, molded wood core plugs engineered specifically for the paper industry; the CorSaver Plug, designed for fine coated papers, and the Center Hole plug, which is used for all grades of paper. All Souhegan Wood Products core plugs are flake-free and smooth to the touch.

### CORSAVER PLUG

The name says it all – this little gem can withstand three times more pressure than most other center hole plugs on the market. In independent testing, our CorSaver plugs withstood a 10,000 lb crush in a .63" walled paper tube.

### CENTER HOLE PLUG NOW AVAILABLE IN 3" AND 4" DIAMETERS!

With an easy-out design preferred by many end-use customers, impressive crush strength, and a competitive price, our smooth, molded Center Hole plugs are an industry favorite.

### Over 50 years of expertise

While others have rushed to begin manufacturing core plugs, we've been making some of the strongest plugs in the industry since Eisenhower was president.

## CORE PLUG SPECIFICATIONS

### CORSAVER™ PLUGS

OUTSIDE DIAMETER	CRUSH STRENGTH*	# PER BOX	BOX WEIGHT	# PER PALLET
3.015"	10,000 lb*	100	35 lb	4,500
3.020"	10,000 lb*	100	35 lb	4,500
3.035"	10,000 lb*	100	35 lb	4,500

### CENTER HOLE PLUGS (MOLDED)

OUTSIDE DIAMETER	INSIDE DIAMETER	CRUSH STRENGTH*	# PER BOX	BOX WEIGHT	# PER PALLET
3.0625"	1"	2,300 lb*	192	48 lb	6,912
4.0625"	1"	5,000 lb**	108	54 lb	3,888

\*3" crush strength based on testing in a .63" walled paper tube.

\*\*4" crush strength based on testing in a .25" walled paper tube.

Don't see the size you're looking for? Our engineers can also custom design and manufacture plugs to fit your cores.

Make sure every roll gets to its final destination intact with our cost-effective core plugs.

Our advanced manufacturing processes ensure consistently high quality and the capacity to provide the core plugs you need whenever you need them.

### SOUHEGAN WOOD PRODUCTS – ROOTED IN INNOVATION, QUALITY, AND SUSTAINABILITY

Souhegan Wood Products is a family-owned and operated manufacturer based in New England. For four generations, our patented manufacturing process has combined graded, recycled wood particles with high-strength, thermosetting resins to create a range of pressed-wood products. SWP engineers continually test, inspect, and improve everything we produce, making ours the most innovative and rugged goods on the market.

Because we only use reclaimed sawdust that comes from other wood industries, we're not only reducing impact on limited raw materials, but we're also eliminating landfill waste – a commitment to sustainability that helps customers reach their corporate environmental goals. To learn more about SWP, please visit us at [www.souheganwood.com](http://www.souheganwood.com).
